

## OKL492 Early Childhood Sexual Education

Ataturk Education Faculty – Elective course

Credit: 2      ECTS: 2

Course Description: This course, OKL492, is in the realm of early childhood sexual education, covering topics such as gender, sexual development in the pre-school period, childhood sexual behaviours, and effective approaches to sexual education for young children. Participants will explore relevant concepts and discover appropriate resource materials for imparting knowledge in this sensitive area.

Course Outcomes:

- Develop an understanding of the importance of addressing gender and sexual development in early childhood.
- Acquire knowledge about the specific stages of sexual development in young children.
- Explore and comprehend various sexual behaviors exhibited by children during the pre-school years.
- Gain practical skills in providing effective sexual education to children in the preschool age group.
- Identify and utilize suitable resource materials for delivering age-appropriate sexual education to young children.
